EXAMINER'S AMENDMENT

An extension of time under 37 CFR 1.136(a) is required in order to make an examiner's amendment which places this application in condition for allowance. During a telephone conversation conducted on September 16, 2003, Mr. Frank Cottingham requested an extension of time for 1 MONTH(S) and authorized the Director to charge Deposit Account No. 19-0036 the required fee of \$110.00 for this extension and authorized the following examiner's amendment. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Please note that three references from the form PTO-892 mailed with Paper No. 6 have been crossed through as duplicates that were already present and considered on a form PTO-1449.

The application has been amended as follows:

Please enter the After Final amendment filed August 27, 2002.

Please substitute the following Abstract into the instant application:

Abstract

The present invention provides [novel] rapidly growing microorganisms and methods for their use in cloning or subcloning nucleic acid molecules. The rapid growing microorganisms of the present invention form colonies more rapidly than microorganisms typically used in molecular biology and thus provide a significant improvement in in vitro cloning methods used extensively in molecular biology. The invention also relates to kits and compositions used in the methods of the invention.
